Dear Executive Secretary Hutchison:

Thank you for the opportunity to forward the University of Wisconsin System's recommendation on the 2022-23 Wisconsin Grant formula. UW System Financial Aid Directors have submitted a recommendation for the 2022-23 funding formula for my approval.

My recommendation for the 2022-23 formula is that it distribute grants using the following formula. This would include a budget of \$7,684 and a rationing factor of 41% percent, with a maximum expected family contribution of \$5,600. The maximum award would be \$3,150 and the minimum \$854.

My recommendation also includes a second tier if funds are available. The second tier would expand the maximum expected family contribution to \$10,000 and students would be awarded the minimum Wisconsin Grant of \$854.

The UW System continues to use the institutional allocation approach that was initially implemented during 2011-12. For 2022-23, we are proposing that grants continue to be provided to students in proportion to the latest year (2020-21) of Pell Grants received for \$5,600 expected family contribution and below at each UW institution.

The Wisconsin Grant formula continues to strike the difficult balance between funding as many eligible students as possible while still providing grants in meaningful amounts that will help low-income students access a UW education. We believe the current formula uses the state's investment in the most effective manner.

I want to offer my appreciation to the HEAB staff for their hard work and support of the Wisconsin Grant Program. I look forward to hearing your final decision following the meeting of the Higher Educational Aids Board on October 22, 2021.

Sincerely,
